Collector Car Enthusiasts:

As you may or may not know, every year Congress passes legislation designating one day in July as Collector Car Appreciation Day to recognize the importance and fun of classic car restoration and driving. This year, the designated date is July 12 - which is a Friday. However, since a lot of us have to do that thing called "WORK! (shades of Maynard Krebbs), in order for us to participate I am putting together a tour to be conducted on **SATURDAY, JULY 13.**

That morning members from car clubs in the New Orleans area will drive west on Hwy. 61 (Airline Dr.) toward Baton Rouge, along the way meeting up with club members from other clubs. We will make a stop along the way (not yet found - suggestions??), have a tour of the old State Capitol lasting about an hour and a half, then of course find somewhere for lunch.

I would like to know how many are planning to participate so that we will have sufficient parking space for all vehicles, and enough tour guides at the Capitol.

Please let me know the number of participants from your Club, and one name with contact details so that we can coordinate information as the tour takes shape.
