

Alamosa 2020 --- Western National Meet

“The meet that never was”

The Hi-Country Regional Group, sponsors of the 2020 WNM, is offering for sale two items that were produced for the meet that never happened. As we all know the COVID-19 Pandemic got in the way, and the meet had to be cancelled. For that reason, the following items are unique.

First: We have very attractive and fully functional 15 oz white ceramic coffee mugs, which feature a full color Alamosa 2020 Meet logo on one side, and a distinctive legend (but not for the reason we had originally intended) on the other side. These are very sturdy mugs that will work well with the beverage of your choice. You will be pleased to have one (or more) of these mugs. The mugs come individually wrapped in a sturdy, protective box, and cost \$10.00 each (USA funds). In-country shipping will cost \$10.00 and that will cover one or two mugs. If you are possibly interested in more than two mugs, or if we will need to ship out of the country, please contact us. Contact information is shown below.

Second: We do have some gear shift knobs that were produced by Carpenter Industries for the meet. These are 1939 Ford style floor shift type knobs, taffy tan in color, with a multi-colored metal meet logo inset into the top of the knob. For those of you who actively collect meet gear shift knobs, you will definitely need one of these knobs. The knobs are priced at \$20.00 each (USA funds), with a \$5.00 in-country shipping charge. If there will be a need to ship out of country, please contact us for shipping costs.

We hope to hear from lots of you. If you want to use a check (USA funds), which we encourage, please make it out to the Hi-Country Regional Group, and briefly indicate what you are purchasing on the check for/note line. Thanks in advance.
